

JULIUS ALBIZ

MSC STUDENT IN INTERACTIVE MEDIA TECHNOLOGY

EDUCATION

ROYAL INSTITUTE OF TECHNOLOGY (KTH)

Master of Science in Engineering programme Media Technology

A 5-year programme initiated in 2018, in which a bachelors degree is attained summer 2021 and a masters degree within Interactive Media Technology will be attained 2023.

Media Technology is a programme with focus on creatively designing technology for human communication. Similar to other bachelor programmes at KTH, a lot of focus is placed on mathematics and physics initially to thereafter expand into programming as well as interaction design.

Example of courses:

- Interaction programming and the dynamic web
- Software development for interactive media
- Sustainability and Media Technology

Studs | Event Coordinator

Computer Science Chapter KTH October 2021 - Ongoing

- Coordinate events at companies for up to 30 students, initiate and uphold contact with company representatives to help them carry out successful events

WORK EXPERIENCE:

BARTENDER & WAITER

Lokal Izakaya June 2015 - ongoing

- Started working as a barback, seeing to it that tables had no empty glasses and that the bar had everything they needed.
- 2016 I started working as a bartender and waiter where the focus is on providing the best possible service and at the same time making the guests feel at home.

Since my graduation in 2015, Lokal Izakaya has been my workplace. Throughout my years I have learned to dare take the step out and greet guests, keeping calm and performing in stressful environments and doing all this with a smile.

Throughout my years, I have also: taught a numerous amount of bartenders, waiters and barbacks, worked creatively with creating new cocktails and even created cocktail lists that have a clear red thread.

BARTENDER

Mister French summers 2017 and 2018

- Worked as a bartender for the summers 2017 and 2018.

WAITER & CATERING STAFF

Syster & Bror January - July 2016

- Worked as a waiter, lunch staff and as catering staff.

I quickly gained experience in thoroughly following time plans under stress to guarantee the customers wishes and expectations regarding catering.

INTRODUCTION:

I am a loyal, socially outgoing person who loves meetings with new people. My main driving force is to constantly evolve as a person and therefore I am always looking forward to learn new things. I am a quick learner, pedagogical, and a creative and logical thinking person that loves to find peace and structure in stressful situations

In the future I see myself in a role where I have the opportunity to combine my logical and my creative side in a role where I regularly meet new people.

MERITS & EXPERTISE

- Assistant coach in a youth Handball team
- Participated in the reception of new students at KTH
- Knowledge within the following programming languages: Python, Javascript and Java
- Fluent in Swedish, Spanish and English, moderate knowledge in French
- Have read additional course in project management
- Read an Ideation course at SSES

"In RSA, Julius was the person who listened and let everyone else's opinions come out, but he was also good at presenting arguments for his own opinions. In his own humorous way, he sees to it to create a good mood in the group, take own initiatives and come with new inputs or opinions. These qualities would therefore make him a great leader" - Moa Engquist, leader over the RSA group within the reception of new students at KTH.
